Description:

We've watched interesting plural marriages in TV documentaries, read about them in books, and even seen them featured in an HBO series. We've heard daunting stories about young women forced into marrying older men and the admirable journey to escape their way out of the polygamous life they were taught they belonged. We've seen a large family grow on a TLC show, documenting the Mormon religion and discipline from a positive perspective. Today, the Mormon and polygamous culture has shown itself into the limelight more than ever before. This series of seventeen stories focuses on the Barlow family, a family that epitomized the Mormon, polygamous lifestyle. It was led by Albert Barlow, a father of thirty-

four children and a husband to three women for over fifty years. The seventeen living daughters of Alberts family here to tell their story. They have seen it all, they have experienced it all. Here we can observe how one lifestyle can branch out to seventeen different perspectives, seventeen different dreams, and seventeen different outcomes.

I found this book to be extremely sad. It seems to me that many of these women are merely seeking affirmation of a lifestyle that results in much pain and emptiness. While describing various beatings, sexually inappropriate acts, and general mistreatment by their father, they insist that they adored him and looked up to him. I find this disturbing. I think there is a longing here for the attention and love that all children deserve from both mother and father. Any small hint at this is remembered with a fondness that is almost pathetic. At the same time, I sense an effort by the women who continued in this lifestyle as adults to convince not only the reader, but perhaps themselves, that this is a fulfilling, joyous way to live. Personally, I don't buy it, and I do not understand any of the reasons why this lifestyle persists. While I respect any and all religious convictions, I simply do not believe that a loving God would want his people to live in what amounts to a chosen state of poverty, pain, and impossible responsibilities. I wish all of these women well, but I sincerely hope that future generations will think for themselves and make wise decisions as to how they will live their own lives and follow a God that really does care about them but expects them to live responsibly.
